Education

Iran University of Science and Technology (IUST)

M.Sc. in Computer Engineering – Software

Tehran, Iran

Sept. 2024 – Present

- **Ranked #1 among M.Sc. students**; IUST is the **4th-ranked university in Iran**.
- **GPA**: 18.63/20.
- **M.Sc. Thesis**: *Adaptive and Efficient LLM Systems for Federated and Edge Environments*.
- Supervisor: Dr. Mehrdad Ashtiani.

Babol Noshirvani University of Technology

B.Sc. in Computer Engineering

Babol, Iran

Sept. 2018 – Feb. 2024

Research Interests

- Federated Learning
- Cloud Computing
- Data Engineering
- LLMs & SLMs
- Auto-Scaling
- Distributed Systems
- Edge Computing
- Computer Vision
- AI for Software Engineering

Publications

1. **EdgeLog: When a 0.5B Framework Rivals 7B LLMs in Log Analysis**
Under Review – ICSE 2027

2. **MAB-RAFD: Bandit-Controlled Role-Adaptive Factor Decoupling for Federated LoRA**
Manuscript Ready for Submission

Research & Teaching Experience

Research Assistant & Lab Co-Lead

Distributed Infrastructure for NextGen Applications Lab, IUST

Sept. 2025 – Sept. 2027

Tehran, Iran

- Served as **Lab Lead (2 years)**, overseeing research operations, infrastructure, member onboarding, and technical sessions.
- Assisted the PI in facilitating weekly lab meetings and **mentoring Master's students** on academic and research progress.
- Shaped research ideas in distributed/ML systems and helped move them toward **publication-oriented academic work**.
- Mentored undergraduate researchers and **co-developed a research manuscript** for conference publication.

Teaching Assistant

Iran University of Science and Technology (IUST)

Sept. 2025 – Sept. 2027

Tehran, Iran

- TA for *Software Architecture* and *Advanced Software Engineering*;
- Recognized as **Outstanding TA for four consecutive semesters**.
- Led concept reviews and problem-solving sessions, supervised semester projects
- Supported grading of assignments and exams.

Visiting Lecturer

Shamsipour Technical and Vocational College

Sept. 2025 – Feb. 2028

Tehran, Iran

- Teaching **Database Systems** and **Advanced Programming** courses to approximately **200 students per semester**.
- Developed course materials, exams, and coding projects
- Achieved the **highest student-evaluation score among instructors**.
- Co-authored research papers with students presented at top-tier national conferences.

Selected Achievements

- **Ranked #1 M.Sc. student** in Computer Engineering at IUST.
- Recognized as the **Outstanding Teaching Assistant for four consecutive semesters**.
- Ranked as the **top instructor by student evaluation scores** at Shamsipour Technical and Vocational College.

Academic Projects

EdgeLog – Compact LLM Framework for Log Analysis

ICSE 2027 Under Review

Developed a compact **0.5B-scale framework** for log-analysis research and evaluated it against substantially larger **7B LLM** baselines, focusing on efficiency and practical deployment.

MAB-RAFD – Federated LoRA Adaptation

Ready for Submission

Developing a **bandit-controlled, role-adaptive factor-decoupling** approach for federated LoRA, targeting adaptive and communication-efficient model personalization.

Skills

Programming: Python, SQL, Bash Scripting

ML & Data: TensorFlow, Keras, Scikit-Learn, Pandas, NumPy, Matplotlib, Seaborn

Data Engineering: Apache Spark, Apache Kafka, Hadoop Ecosystem (HDFS)

Backend & Databases: Django, DRF, GraphQL, PostgreSQL, MySQL, MongoDB

Cloud / DevOps: Docker, Kubernetes, Git, CI/CD, Linux (Ubuntu, CentOS), $\LaTeX$

Software Engineering: Design Patterns, System Design, Unit & Integration Testing, Software Refactoring

Soft Skills: Critical Thinking, Technical Writing, Leadership, Public Speaking, Adaptability

Language Proficiency

English – TOEFL iBT: 105 (R: 28, L: 29, S: 23, W: 25; Sep. 2026)

Persian: Native
